

Drought Proof Your Landscape with GREYWATER

FREE WORKSHOP please register at
www.WestSacRecycles.org

INTERESTED IN REUSING GREYWATER?

Greywater is water from sinks, showers, and washing machines. Instead of sending it down the sewer it can be safely and simply redirected into the landscape for irrigation. Reusing household greywater saves water, saves time, and reduces water flowing into the sewer system.

Find out if a greywater system is a good match for your home and landscape in our informative slideshow presentation "Drought-Proof Your Landscape with Greywater"

LEARN ABOUT

- Common types of systems
- Advantages and limitation of different systems
- Plant friendly soaps and products
- How much water you may save
- System costs
- Incentives and rebates
- Codes and regulations

**FREE WORKSHOP
SATURDAY
JUNE 21ST 9-11AM**

**WEST SACRAMENTO
COMMUNITY CENTER
1075 W.CAPITOL AVE
WEST SACRAMENTO, CA**
