

Central Coast Urban Forest Council  
Minutes  
9/23/09

**I. Roll Call:**

Jeff Reimer, Ken Knight, Jack McCabe and Cindy McCall

**II. Update/Amend notes from August Call:**

The minutes were accepted as read by consensus.

**III. Update on Committees by Chairs (progress report and next steps)**

**A. Education – Report by Jeff Reimer**

Jeff emphasized the website as a host for educational information. He requested that all educational workshops and information be forwarded to him for inclusion on the website. Links to other educational opportunities can be listed on the website. Once Jeff receives information from our Council, he can start event listings. Resource links for non-profits, grass roots, professional and government will be added as Jeff receives the information.

**B. Website – Report by Jeff Reimer**

We were all grateful for the excellent work Jeff has done on our website. Our website update is impressive. Jeff has agreed to Chair both the Education and Website Committees because the two are so closely linked. The following items should be forwarded to Jeff for inclusion in the website. Please don't overload him during the test period. All workshops and training information should be limited to our Regional Council and CaUFC during the test period. Jeff needs photos and pages from the cities, businesses and non-profits participating in our Council.

**C. Outreach – Co-Chairs were not available at this meeting.**

**D. Advocacy - Chair was not available at the meeting.**

**Thanks!**  
**Cindy McCall**
