

The California Urban Forests Council Board Member

The California Urban Forest Council (CaUFC) has opportunities for individuals to serve on the organization's Board of Directors.

Board members are vital in directing and assisting the organization in meeting its fundraising and program goals. CaUFC invites individuals who are passionate about trees and dedicated to the cause of urban forestry, and who are committed to actively participate in Board meetings, fundraising activities and advocacy. Board members should share the organization's belief that working closely together with different partners, we can achieve greater membership and financial resources. Board members should value the social and community-building benefits that serving the organization brings.
