

Trees and Solar Power: Natural partners (no, really)!

California is leading the way in solar power with the California Solar Initiative & the 2014 Million Solar Roofs Program.

We want to see Certified, Consulting, Master, Municipal & Utility Arborists & Design and Solar Professionals out in front on this opportunity - giving you tools to expand your business practices and get it done right!

<p>Tuesday October 15th, 2013 Davis, CA</p>	<p>8:00 AM registration 9:00 AM start time to 3:00 PM</p>	<p>Thursday October 17th, 2013 San Diego, CA</p>
--	---	---

FACILITATOR, DAN STALEY, Principal of DCS Consulting Services, will lead a day-long training that will help:

- Get arborists and design professionals out in front of this opportunity
- Help you expand your business practice and expertise
- Get you educated from an expert panel of leading professionals in solar, urban forestry, landscape architecture, and government

The training includes:

- Intensive learning sessions with other professionals to walk you through solar analysis concepts
- Hands-on practical design
- Information on how to avoid tree-solar conflicts
- Identification of free and low-cost tools to expand your practice
- Dan Staley's new book: "The Manual of Trees and Rooftop Solar Site Analysis"
