

Celebrating the Uniqueness & Utilization of California Urban Woods

"From Urban Wood to Final Form"

April 2nd - 4th, 2015

Palomar College, San Marcos, CA

Keynote Speaker

Ron Daniels from

The Animal Planet's

"Redwood Kings!"

The opportunity to learn about the increasingly relevant topic of urban wood utilization in California does not come around often and is not to be missed. We urge you to join urban forest managers, researchers, industry professionals and woodworkers alike as we entertain the conversation of expanding and sustaining our urban forest products market by considering the true value of trees for more than just the benefits they give us while alive.

Industry Leaders in Technology, Research, Design, Education, Woodworking, Mechanics, Best Practices & Funding

Palomar College – Cabinet & Furniture Technology Department, San Marcos, CA

AGENDA available on conference website
